

## Vision

To simplify client communications of Sub Brokers or Channel Partners of main broker by enabling them to provide their clients with Value Added Services of trade related after market informations by integrating & automating their back office

## About i-Accentor

i-Accentor has been developed to serve Sub Brokers of Share Market, enabling them to provide their clients with after market trade related communications through SMS services. i-Accentor can be integrated with Back Office data base to fetch data and send daily transactions of clients via SMS. It can also fetch data from flat files like excel, CSV, word, etc. and generate SMS when imported.

## Why i-Accentor?

 Direct reach to audience even when they are on the move

 Competitive advantage through client satisfaction

 Time saving communication

 Highly personalized & secure

 Bulk platform to send bulk batch rapidly
